## Fund is diversifying in private market assets

*A message from Chief Investment Officer  
A. Melissa Moye*

THE MARYLAND STATE RETIREMENT AND PENSION SYSTEM (MSRPS) FUND INVESTS in private market assets as well as publicly-traded stocks and bonds, using external investment managers for both asset classes. The Investment Division selects and monitors external managers, including those that manage private investment strategies in real estate, other real assets such as timber and infrastructure, private equity and private debt funds.

Private market funds provide opportunity for pension funds to further diversify their portfolios. Unlike many individual investors, pension funds can invest for 10 or more years in private equity or other private market funds, with the potential to earn a return which includes

## Assumed rate of return: the real story

THE ASSUMED RATE OF RETURN for the Maryland State Retirement and Pension System—that is, what we expect to earn on our investments—is currently set at 7.75%. This rate of return is reviewed every year by the System’s Board of Trustees. Some critics tell us it is unreasonable to expect those kinds of earnings after the 2008 crisis. Perhaps so, but the assumed rate of return adopted by the Board of Trustees predicts what the system expects to earn on average over a long-term horizon—typically 25 years or more—appropriately reflecting the work life of a typical public employee.

As a real measure, the system has done very well in meeting or exceeding its assumed rate of 7.75% over the long term. The system has earned 7.97% on average over the past 25 years as of January 31, 2013.

How does Maryland compare nationally? A recent public fund survey of 126 plans found that 8.0% remains the predominant rate assumption among 43 plans, with the overall average at 7.80%.

Certainly, it would be ideal if the system matched or exceeded its assumed rate of return every single year, but the volatility of the market makes that unlikely, as evidenced by recent history. For example, the system earned just 0.36% on investments in fiscal 2012, but earned 20% in fiscal 2011 and 14% in fiscal 2010.

a premium for the longer time horizon of these investments.

For instance, as of June 30, 2012, the Maryland private equity program earned 8.6% annualized over a ten year period, compared to the S&P 500 at 5.3% annualized. Private equity funds account for 6% of the total assets of the MSRPS. Over time, private equity is planned to increase to 10% of the total fund.

The MSRPS will always need to maintain investments in publicly-traded securities to provide diversity and liquidity to the overall fund. However, the private funds in which we invest provide opportunity for strengthening long-term returns and increasing diversification of the total fund.

Ignoring the success of the system's earnings in the previous two fiscal years—or the previous 25 years for that matter—critics have instead pointed to the FY 2012 earnings as "proof" that our expectations are overly-optimistic. Let us be clear:

One year's worth of earnings does not a trend make; neither do two or three. We take the long view. Benefits are paid out by the system over the long-term, requiring a long-term investment horizon and funding strategy.

# Trustee elections slated for teachers, employees

**ELECTIONS WILL BE CONDUCTED IN SPRING 2013** for two seats on the Board of Trustees of the Maryland State Retirement and Pension System.

A Teachers' Systems representative and an Employees' Systems representative will be chosen in the election. These two board seats are currently held by Teachers' Systems representative Kenneth B. Haines and Employees' Systems representative Sheila Hill, whose terms expire in July 2013.

Although these two board seats are open only to active members, both active members and retirees of the respective systems will be eligible to vote. Election materials, including candidate biographies, will be mailed in May to all eligible voters.

Teachers' Systems candidates must be active members of the Teachers' Retirement or Pension Systems. Employees' Systems candidates must be active members of the Correctional Officers' Retirement System, Employees' Retirement or

Pension Systems, Judges' Retirement System, Legislative Pension Plan, Local Fire and Police System or Law Enforcement Officers' Pension System.

The two successful candidates will serve terms in office from August 1, 2013 through July 31, 2017.

For more information on the Board of Trustees, including member biographies, photos and committee assignments, please visit the Maryland State Retirement Agency Website at [sra.maryland.gov](http://sra.maryland.gov).
